

CoolDrive Auto Parts

Introduction

This case study of CoolDrive Auto Parts is based on an August 2019 survey of SonicWall NSA firewalls customers by TechValidate, a 3rd-party research service.

“I sleep easier at night knowing we have SonicWall firewalls at over 40 locations around the world,” says Jordan Bagnoux, Director, CoolDrive Auto Parts in Australia. “SonicWall NSa firewalls deliver firewall security, site-to-site VPN, A/V, WAN redundancy and many more features that we use day to day.”

Challenges

The organization had tried Palo Alto Networks before selecting their SonicWall NSa solution. They deployed SonicWall NSa firewalls because they were challenged with receiving satisfactory support and customer service.

Use Case

Key features that were important in selecting their SonicWall NSa firewall included:

- Capture ATP multi-engine sandboxing
- Real-Time Deep Memory Inspection (RTDMI)
- Deep Packet Inspection of Encrypted Traffic (DPI-SSL)
- An integrated VPN

Results

Bagnoux is very satisfied with their NSa Series firewall and agrees they provide the best security value. “My SonicWall NSa firewall is meeting or exceeding my performance and security expectations.”

The company achieved the following results with SonicWall NSa firewalls:

- Improved the efficiency of a business process
- Reduced IT infrastructure costs
- Improved overall system uptime
- Delivered faster performance
- Met regulatory compliance standards
- Lowered total cost of ownership
- Increased number of blocked attacks by 51-75%

Company Profile

Company:
CoolDrive Auto Parts

Company Size:
Medium Enterprise

Industry:
Automotive & Transport

About SonicWall

SonicWall delivers Boundless Cybersecurity for the hyper-distributed era in a work reality where everyone is remote, mobile and unsecure. SonicWall safeguards organizations mobilizing for their new business normal with seamless protection that stops the most evasive cyberattacks across countless exposure points and increasingly remote, mobile and cloud-enabled workforces. By knowing the unknown, providing real-time visibility and enabling breakthrough economics, SonicWall closes the cybersecurity business gap for enterprises, governments and SMBs worldwide.
