

MELTON MOWBRAY BUILDING SOCIETY SAFEGUARDS ITS CUSTOMERS' VALUABLE ASSETS

Building society confidently secures its network with SonicWall next generation security solution

Business need

Melton Mowbray needed a powerful security solution that would keep its customer data safe at all times and allow it to easily track and monitor activity inside and outside its network.

Solution

A pair of SonicWall SuperMassive 9400 next generation firewalls in high availability with SonicWall Comprehensive Gateway Security Suite.

Results

"Our network infrastructure and the loads placed upon that infrastructure continually grow and develop. Despite this continual change and the increased level of global security threats, Citadel and SonicWall have enabled us to reduce the resource required to manage and control our network security. Our business now benefits from in depth security, flexible configuration and ease of management, as well as providing a level of visibility to the business that was previously unattainable." Steve Clayton, Head of Group IT at Melton Mowbray Building Society

Benefits

- Single pane of glass to secure, manage and monitor network
- Real time event monitoring and detailed reporting
- Scalable solution that will meet current and future needs
- All-in-one solution for Gateway anti-virus and malware, IPS and content filtering

Solutions at a glance

- [SonicWall SuperMassive Series](#)
- [SonicWall Comprehensive Gateway Security Suite \(CGSS\)](#)
- [SonicWall Global Management System \(GMS\)](#)

"SonicWall firewalls deliver security with greater effectiveness, performance and scalability than its competitors, and at a lower cost of ownership. The intuitive user interface is very easy to implement and policies can easily be set up and adapted to meet business demands."

ANDY STARR, MANAGING DIRECTOR AT CITEDEL
