

Office Products Inc.

Introduction

This case study of Office Products Inc is based on a May 2019 survey of SonicWall Network Security customers by TechValidate, a 3rd-party research service.

“My SonicWall TZ series firewall is meeting or exceeding my performance and security expectations.” – Patrick Jacobs, IT Specialist, Office Products Inc.

Challenges

Business challenges that led Office Products Inc. to evaluate and ultimately select SonicWall Network Security included:

- Enforcing a uniform advanced security platform across distributed sites
- Easing central management of firewalls across distributed sites
- Lowering total cost of ownership
- Optimizing network security performance
- Receiving satisfactory support and customer service

Security challenges that the company needed to address included:

- Malware
- Ransomware
- Never-before-seen/zero-day cyberattacks

Office Products Inc. had owned a SonicWall firewall in the past. The company also evaluated WatchGuard solutions before selecting a SonicWall solution.

Use Case

Key features and functionalities of SonicWall Network Security that were important to Office Products Inc. in selecting their TZ included:

- The ability to capture ATP sandboxing
- Real-time Deep Memory Inspection (RTDMI)
- Reassembly-Free Deep Packet Inspection (RFDPI)
- Deep packet inspection of encrypted traffic (DPI SSL)

Results

Office Products Inc. is extremely satisfied with its TZ firewalls. They find that its SonicWall TZ solution:

- Are easy to deploy and manage
- Have the networking features they need

Operational benefits the company received following the deployment of their SonicWall TZ included:

- Improved data protection of critical information
