

Retail: Supermercado Mialich

Introduction

This case study of Supermercado Mialich is based on an August 2019 survey of SonicWall NSa firewalls customers by TechValidate, a 3rd-party research service.

“My SonicWall NSa firewall is meeting or exceeding my performance and security expectations,” says Rafael Posseti, IT Director, Supermercado Mialich

Challenges

The Brazilian retailer deployed SonicWall NSa firewalls because they were challenged with optimizing network security performance.

Use Case

The key features and functionalities that were important in selecting their SonicWall NSa firewall included:

- Single-pane-of-glass management and reporting (Capture Security Center)
- Deep Packet Inspection of Encrypted Traffic (DPI-SSL)
- An integrated VPN

Results

Posseti is extremely satisfied with their NSa Series firewall, and found that SonicWall NSa beat the competition in security effectiveness.

Supermercado Mialich realized the following operational benefits following the deployment of their SonicWall NSa firewall:

- Improved the efficiency of a business process
- Improved overall system uptime
- Faster performance
- Improved data protection of critical information
- Increased the number of blocked attacks by 76-100%
