The latest SonicWall TZ series, are the first desktop form factor next-generation firewalls (NGFW) with 10 or 5 Gigabit Ethernet interfaces. The series consist of a wide range of products to suit a variety of use cases.

Designed for small, mid-sized organizations and distributed enterprise with SD-Branch locations, the 7th generation (Gen 7) TZ series delivers industry-validated security effectiveness with best-in-class price-performance. These NGFWs address the growing trends in web encryption, connected devices and high-speed mobility by delivering a solution that meets the need for automated, real-time breach detection and prevention.

### HIGHLIGHTS
- 10/5/2.5/1 GbE interfaces in a desktop form factor
- SD-Branch ready
- Secure SD-WAN capability
- SonicExpress App onboarding
- Zero-Touch Deployment
- Single-pane-of-glass-management through cloud or firewall
- SonicWall Switch, SonicWave Access Point and Capture Client integration
- Built-in and expandable storage
- Redundant power
- High port density
- Cellular failover
- SonicOS 7.0
- TLS 1.3 support
- Groundbreaking performance
- High connection count
- Fast DPI performance
- Low TCO

### TZ Series (Gen 7) Spec Preview.

Find the right SonicWall solution for your business:

[sonicwall.com/TZ](https://sonicwall.com/TZ)
The Gen 7 TZ series are highly scalable, with high port density of up to 10 ports. It features both in-built and an expandable storage of up to 256GB, that enables various features including logging, reporting, caching, firmware backup and more. An optional second power supply provides added redundancy in case of failure on select models.

Deployment of Gen 7 TZs are further simplified by Zero-Touch Deployment, with the ability to simultaneously roll out these devices across multiple locations with minimal IT support. Built on next-gen hardware, it integrates firewalls, switching and wireless capabilities, plus provides single-pane-of-glass management for SonicWall Switches and SonicWave Access Points. It allows tight integration with Capture Client for seamless endpoint security.

**SonicOS and Security Services**

The SonicOS architecture is at the core of TZ NGFWs. Gen 7 TZs are powered by the feature rich SonicOS 7.0 operating system with new modern looking UX/UI, advanced security, networking and management capabilities. Gen 7 TZ features integrated SD-WAN, TLS 1.3 support, real-time visualization, high-speed virtual private networking (VPN) and other robust security features.

Unknown threats are sent to SonicWall’s cloud-based Capture Advanced Threat Protection (ATP) multiengine sandbox for analysis. Enhancing Capture ATP is our patent-pending Real-Time Deep Memory Inspection (RTDMI™) technology. As one of Capture ATP’s engine, RTDMI detects and blocks malware and zero-day threats by inspecting directly in memory.

By leveraging Capture ATP with RTDMI technology, in addition to security services such as Reassembly-Free Deep Packet Inspection (RFDPI), Anti-virus and Anti-spyware Protection, intrusion prevention system, Application Intelligence and Control, Content Filtering Services, DPI-SSL, TZ series firewalls stop malware, ransomware and other advanced threats at the gateway. For more information, refer the SonicOS and Security Services Datasheet.

“The TZ570 is easy to onboard, use, and manage, and has an easy wizard and clear menus. I love to use SonicWall products, and really appreciate the support which SonicWall has extended.”

— Gaurav Pandey, Head IT, Delhivery

Deployments

Small to Medium size Business
- Save space and money with an integrated gateway security solution with firewalling, switching and wireless capabilities
- Reduce complexity and get the business running without relying on IT personnel with easy onboarding using SonicExpress App and Zero-Touch Deployment, and easy management through a single pane of glass
- Attain business continuity by providing failover to cellular connectivity
- Protect network from attacks with a comprehensive security solution that incorporates VPN, IPS, CFS, AV and much more
- Leverage high port density to power on multiple PoE devices such as IP phones and IP cameras with TZ570P
- Boost employee productivity by blocking unauthorized access with traffic segmentation and access policies

Distributed Enterprise with SD-Branches
- Enhance customer experience and adapt to the changing business needs by enabling next-gen branch connectivity with SD-Branch
- Drive business growth by investing in next-gen appliances with multi-gigabit and advanced security features, to future-proof against the changing network and security landscape
- Secure networks from the most advanced attacks with advanced security features and automatically block threats on decrypted traffic using protocols such as TLS 1.3
- Leverage end-to-end network security with seamless integration of SonicWave access points, SonicWall Switches and Capture Client
- Ensure seamless communication as stores talk to HQ via easy VPN connectivity which allows IT administrators to create a hub and spoke configuration for the safe transport of data between all locations
- Improve business efficiency, performance and reduce costs by leveraging Gen 7 TZ’s hardware and software enhancements, plus features such SD-WAN technology
- Scale quickly and effortlessly with SonicExpress App and Zero-Touch Deployment
- Ensure business continuity by providing failover to cellular connectivity
- Maintain compliance with security features, and leverage built-in and expandable storage to store logs for audit purposes
**SonicWall TZ270 series**

Designed for home offices and lean branches, the TZ270 series deliver industry-validated security effectiveness with best-in-class price-performance.

**TZ270W Front Panel**

- USB 3.0 SuperSpeed ports
- RJ45 Port LEDs
- Power LED
- Test LED
- Security LED
- Storage LED
- Wireless W0 WLAN LED (Wireless TZ270W only)
- LAN/MMGT X0 Port LED
- U0 WWAN LEDs for USB 5G/LTE
- WAN X1 and X2 Port LEDs

**TZ270W Rear Panel**

- X2 WAN RJ45 Port
- X1 LAN RJ45 Port
- X0 LAN RJ45 Port
- Power Input
- Grounding Screw
- SafeMode Button

---

**SonicWall TZ370 series**

Designed for small organizations and lean branches, the TZ370 series deliver industry-validated security effectiveness with best-in-class price-performance.

**TZ370W Front Panel**

- USB 3.0 SuperSpeed ports
- RJ45 Port LEDs
- Power LED
- Test LED
- Security LED
- Storage LED
- Wireless W0 WLAN LED (Wireless TZ370W only)
- LAN/MMGT X0 Port LED
- U0 WWAN LEDs for USB 5G/LTE
- WAN X1 and X2 Port LEDs

**TZ370W Rear Panel**

- X2 WAN RJ45 Port
- X1 LAN RJ45 Port
- Power Input
- Grounding Screw
- SafeMode Button

---

**SonicWall TZ470 series**

Designed for small organizations and distributed enterprise with SD-Branch locations, the TZ470 series deliver industry-validated security effectiveness with best-in-class price-performance.

**TZ470W Front Panel**

- USB 3.0 SuperSpeed ports
- RJ45 Port LEDs
- Power LED
- Test LED
- Security LED
- Storage LED
- Wireless W0 WLAN LED (Wireless TZ470W only)
- LAN/MMGT X0 Port LED
- U0 WWAN LEDs for USB 5G/LTE
- SFP/SFP+ Port LEDs
- WAN X1 and X2 Port LEDs

**TZ470W Rear Panel**

- X2 WAN RJ45 Port
- X0 LAN RJ45 Port
- X1 WAN RJ45 Port
- X8/X9 SFP/ SFP+ Ports
- Power Input
- Grounding Screw
- SafeMode Button

1. Testing Methodologies: Maximum performance based on RFC 2544 (for firewall). Actual performance may vary depending on network conditions and activated services.

3. VPN throughput measured with UDP traffic using 1418 byte packet size AESGMAC16-256 Encryption adhering to RFC 2544. All specifications, features and availability are subject to change.

4. For rack mount, separate rack mount kit available.

5. All TZ integrated wireless models can support either 2.4GHz or 5GHz band. For dual-band support, please use SonicWall’s wireless access point products.

1. Testing Methodologies: Maximum performance based on RFC 2544 (for firewall). Actual performance may vary depending on network conditions and activated services.

3. VPN throughput measured with UDP traffic using 1418 byte packet size AESGMAC16-256 Encryption adhering to RFC 2544. All specifications, features and availability are subject to change.

4. For rack mount, separate rack mount kit available.

5. All TZ integrated wireless models can support either 2.4GHz or 5GHz band. For dual-band support, please use SonicWall’s wireless access point products.

### PARTNER ENABLED SERVICES

Need help to plan, deploy or optimize your SonicWall solution? SonicWall Advanced Services Partners are trained to provide you with world class professional services. Learn more at:

SonicOS 7.0 Feature Summary

Firewall
- Stateful packet inspection
- Reassembly-Free Deep Packet Inspection
- DDoS attack protection (UDP/ICMP/SYN flood)
- IPv4/IPv6 support
- Biometric authentication for remote access
- DNS proxy
- Full API support
- SonicWall Switch integration
- SD-WAN scalability
- SD-WAN Usability Wizard
- SonicCoreX and SonicOS containerization
- Connections scalability (SPI, DPI, DPI SSL)

Enhanced dashboard
- Enhanced device view
- Top traffic and user summary
- Insights to threats
- Notification center

TLS/SSL/SSH decryption and inspection
- TLS 1.3 with enhanced security
- Deep packet inspection for TLS/SSL/SSH
- Inclusion/exclusion of objects, groups or hostnames
- SSL control
- Enhancements for DPI-SSL with CFS
- Granular DPI SSL controls per zone or rule

Capture advanced threat protection
- Real-Time Deep Memory Inspection
- Cloud-based multi-engine analysis
- Virtualized sandboxing
- Hypervisor level analysis
- Full system emulation
- Broad file type examination
- Automated and manual submission
- Real-time threat intelligence updates
- Block until verdict
- Capture Client

Intrusion prevention
- Signature-based scanning
- Automatic signature updates
- Bi-directional inspection
- Granular IPS rule capability
- GeoIP enforcement
- Botnet filtering with dynamic list
- Regular expression matching

Anti-malware
- Stream-based malware scanning
- Gateway anti-virus
- Gateway anti-spyware
- Bi-directional inspection
- No file size limitation
- Cloud malware database

Application identification
- Application control
- Application bandwidth management
- Custom application signature creation
- Data leakage prevention
- Application reporting over NetFlow/IPFIX
- Comprehensive application signature database

Traffic visualization and analytics
- User activity
- Application/bandwidth/threat usage
- Cloud-based analytics

HTTP/HTTPS Web content filtering
- URL filtering
- Proxy avoidance
- Keyword blocking
- Policy-based filtering (exclusion/inclusion)
- HTTP header insertion
- Bandwidth manage CFS rating categories
- Unified policy model with app control
- Content Filtering Client

VPN
- Secure SD-WAN
- Auto-provision VPN
- IPSec VPN for site-to-site connectivity
- SSL VPN and IPSec client remote access
- Redundant VPN gateway

Mobile Connect for iOS, Mac OS X, Windows, Chrome, Android and Kindle Fire

Networking
- PortShield
- Path MTU discovery
- Enhanced logging
- VLAN trunking
- Port mirroring (NSa 2650 and above)
- Layer-2 QoS
- Port security
- Dynamic routing (RIP/OSPF/BGP)
- SonicWall wireless controller
- Policy-based routing (ToS/ metric and ECMP)
- NAT
- DHCP server
- Bandwidth management
- A/P high availability with state sync
- Inbound/outbound load balancing
- High availability - Active/Standby with state sync
- L2 bridge, wire/virtual wire mode, tap mode, NAT mode
- Asymmetric routing
- Common Access Card (CAC) support

VoIP
- Granular QoS control
- Bandwidth management
- DPI for VoIP traffic
- H.323 gatekeeper and SIP proxy support

Management, monitoring and support
- Capture Security Appliance (CSa) support
- Capture Threat Assessment (CTA) v2.0
- New design or template
- Industry and global average comparison
- New UI/UX, Intuitive feature layout
- Dashboard
- Device information, application, threats
- Topology view
- Simplified policy creation and management
• Policy/Objects usage statistics\(^1\)
  • Used vs Un-used
  • Active vs Inactive
• Global search for static data
• Storage support\(^1\)
• Internal and external storage management\(^1\)
• WWAN USB card support (5G/LTE/AG/3G)
• Network Security Manager (NSM) support
• Web GUI
• Command line interface (CLI)
• Zero-Touch registration & provisioning
• CSC Simple Reporting\(^1\)
• SonicExpress mobile app support
• SNMPv2/v3
• Centralized management and reporting with SonicWall Global Management System (GMS)\(^2\)
• Logging
• Netflow/IPFix exporting
• Cloud-based configuration backup
• BlueCoat security analytics platform
• Application and bandwidth visualization
• IPv4 and IPv6 management
• CD management screen
• Dell N-Series and X-Series switch management including cascaded switches

### Debugging and diagnostics
• Enhanced packet monitoring
• SSH terminal on UI

### Wireless
• SonicWave AP cloud management
• WIDS/WIPS
• Rogue AP prevention
• Fast roaming (802.11k/r/v)
• 802.11s mesh networking
• Auto-channel selection
• RF spectrum analysis
• Floor plan view

### Integrated Wireless (TZ270/370/470/570W only)
• 802.11ac Wave 2 wireless
• Dual-band (2.4 GHz and 5.0 GHz)
• 802.11 a/b/g/n/ac wireless standards
• Wireless intrusion detection and prevention
• Wireless guest services
• Lightweight hotspot messaging
• Virtual access point segmentation
• Captive portal
• Cloud ACL

About SonicWall

SonicWall delivers Boundless Cybersecurity for the hyper-distributed era and a work reality where everyone is remote, mobile and unsecure. By knowing the unknown, providing real-time visibility and enabling breakthrough economics, SonicWall closes the cybersecurity business gap for enterprises, governments and SMBs worldwide. For more information, visit [www.sonicwall.com](http://www.sonicwall.com) or follow us on Twitter, LinkedIn, Facebook and Instagram.
