Public UnAce Licence

       The Public UnAce Package (v2.0 or later if not otherwise stated) is
       distritbuted under the following licence:

       "Package" refers to the collection of files distributed by the Copyright Holder, and derivatives
       of that collection of files created through textual modification.

       "Standard Version" refers to such a Package if it has not been modified, or has been modified
       in accordance with the wishes of the Copyright Holder.

       "Distribution" as it is used here means making data available to a third party.
       No matter in which way the data is made available.

       "Copyright Holder" is ACE Compression Software.
       "Distribution Partner" is e-merge GmbH (authorised signatory).

         1. The Standard Version of Public UnAce Package may be freely distributed.

         2. The UnAce sources may be used in any software to handle ACE
            archives without limitations free of charge, but must not be used
            to reproduce the ACE compression algorithm.
            This means that that the code must not be used to develop an
            ACE compatible archiver (that is: software capable of compressing to
            Ace archives) in any way.

         3. Distribution of modified Public UnAce sources (as part of other software
            or as stand-alone package) requires that it is clearly stated in the
            documentation and source code that it is distributed under the
            Public UnAce Licence.
            The Public UnAce Licence has to be included in this package.

         4. The name of the Copyright Holder or the support of ACE archives may not be
            used to endorse or promote products derived from this package without specific
            prior written permission from the Copyright Holder or its Distribution Partner.

         5. This Software is distributed "AS IS".
            NO WARRANTY OF ANY KIND IS EXPRESSED OR IMPLIED. YOU USE AT
            YOUR OWN RISK. THE AUTHOR WILL NOT BE LIABLE FOR DATA LOSS,
            DAMAGES, LOSS OF PROFITS OR ANY OTHER KIND OF LOSS WHILE USING
            OR MISUSING THIS SOFTWARE.

         6. Installing and using the Public UnAce Package signifies acceptance of
            these terms and conditions of the license.

Marcel Lemke, ACE Compression Software
