Advanced Medical Management

Introduction

This case study of Advanced Medical Management is based on a November 2019 survey of SonicWall Capture Client customers by TechValidate, a 3rd-party research service.

> "It has enhanced our network security immensely," says David Teel, Senior Network Administrator, Advanced Medical Management. "Since implementing Capture Client, we have not experienced any threats that have not been identified and stopped before doing damage. I cannot say this about the security solutions we have used previously."

Challenges

Teel identified protection against advanced malware attacks as the challenge that most influenced their organization to deploy SonicWall Capture Client.

Endpoint security brands in place or evaluated before selecting SonicWall Capture Client included:

- McAfee
- Kaspersky
- Symantec
- Trend Micro
- BitDefender
- Microsoft

Use Case

"We used a combination of manual and automated deployment to install Capture Client on our endpoints. It is deployed on all servers, PCs and laptops within the organization. We also protect our Citrix Farm with Capture Client, ensuring our clients users' sessions are secure as well."

Key features and functionalities influencing their selection of SonicWall Capture Client included:

- The unified, lightweight agent
- The AI-driven, next-generation AV engine
- Rollbacks
- Endpoint detection and response

Results

Teel is extremely satisfied with their experience with SonicWall Capture Client endpoint protection, and finds it beats the competition in security effectiveness. "SonicWall Capture Client is meeting or exceeding my performance and security expectations."

The company saw a 51-75% reduction in end-user complaints for installed endpoint security products since deploying SonicWall Capture Client. Operational benefits realized following the deployment of SonicWall Capture Client include:

- Improved the efficiency of threat response processes
- Reduced the time to respond to malware attacks
- Improved end-user productivity
- Improved protection of critical information

Company Profile

Company:
Advanced Medical Management

Company Size:
Medium Enterprise

Industry:
Health Care

About SonicWall

SonicWall delivers Boundless Cybersecurity for the hyper-distributed era in a work reality where everyone is remote, mobile and unsecure. SonicWall safeguards organizations mobilizing for their new business normal with seamless protection that stops the most evasive cyberattacks across boundless exposure points and increasingly remote, mobile and cloud-enabled workforces. By knowing the unknown, providing real-time visibility and enabling breakthrough economics, SonicWall closes the cybersecurity business gap for enterprises, governments and SMBs worldwide.
