SONICWALL®

Çağ University

Introduction

This case study of Çağ University is based on an August 2019 survey of SonicWall NSa firewalls customers by TechValidate, a 3rd-party research service.

> " "My NSa 6600 gives me full security against cyberattacks," says Taylan Tutkunca, IT Director, Çağ University. "It is very nice because it blocks attacks and it graphically shows me."

Challenges

The Çağ University is a private, non-profit university in Mersin Province, Turkey. They had tried Cisco and Meraki before selecting their SonicWall NSa solution.

The university deployed SonicWall NSa firewalls because they were challenged with consolidating security and networking features in a single solution.

Use Case

Integrated VPN was an important feature in selecting their NSa solution.

Results

Tutkunca is extremely satisfied with their SonicWall NSa solution, and it is meeting or exceeding performance and security expectations. Tutkunca finds the solution easy to manage.

The university gained the following operational benefits following the deployment of their SonicWall NSa firewall:

- Improved data protection of critical information
- Has seen the number of blocked attacks increase by 76-100%
