SONICWALL®

Doga Sigorta

Introduction

This case study of Doga Sigorta is based on a July 2020 survey of SonicWave customers by TechValidate, a 3rd-party research service.

> "SonicWave wireless access points are the best for guest VLAN and personnel VLAN."
> —Ersen Ozcan, IT Manager

Challenges

The medium-enterprise insurance company had tried Aruba wireless access points before selecting SonicWall SonicWave.

The company cited the need for real-time, rich data analytics and reporting as the challenge that most influenced their decision to select SonicWave access points.

Use Case

Powerful wireless network security was an important consideration for choosing SonicWave access points.

Ozcan reports that SonicWave provides the best security value and beat the competition in security effectiveness.

Results

The company is extremely satisfied with their SonicWave wireless access points. The SonicWave solution is meeting or exceeding their performance and security expectations, and provides a secure, flexible and easy-to-use way to connect and secure employees, while allowing them to maintain social distancing. Ozcan finds the solution flexible, easy to manage, and provides the tools and features they need.

Since deploying SonicWave, Doga Sigorta greatly improved productivity for their wireless network users. The company has realized the following operational benefits following the deployment of SonicWave solutions:

- Helped re-establish business operations while maintaining social distancing
- Improved management efficiency
- Simplified wireless security management
- Increased employee productivity
- Improved protection of critical information
- Helped meet regulatory compliance mandates
- Lowered costs of administration
