

Educational Institution

Introduction

This case study of a small business educational institution company is based on a November 2019 survey of SonicWall Capture Client customers by TechValidate, a 3rd-party research service. The profiled company asked to have their name blinded to protect their confidentiality.

“SonicWall Capture Client includes the endpoint security features I need,” says the Director of an educational institution in eastern Massachusetts.

Challenges

The institution had tried McAfee before selecting their SonicWall Capture Client solution.

Challenges that most influenced their organization to deploy Capture Client included:

- Protection against malware attacks
- Getting visibility of endpoint activity off the network
- Making informed incident response decisions
- Delivering security without hampering user productivity
- Enforcing endpoint compliance before providing network access
- Recovering from ransomware attacks without paying the ransom
- Receiving satisfactory support and customer services

Use Case

Key features and functionalities influencing their selection of SonicWall Capture Client included:

- The ability to extend security off-network
- Endpoint detection and response
- Removable device protection (USB drives)

Results

The Director is extremely satisfied with their experience with SonicWall Capture Client endpoint protection.

The institution has achieved the following results with Capture Client:

- Improved the efficiency of threat response processes
- Met regulatory compliance standards

Company Profile

The company featured in this case study asked to have its name publicly blinded because publicly endorsing vendors is against their policies.

TechValidate stands behind the authenticity of this data.

Company Size:
Small Business

Industry:
Educational Institution

About SonicWall

SonicWall delivers Boundless Cybersecurity for the hyper-distributed era in a work reality where everyone is remote, mobile and unsecure. SonicWall safeguards organizations mobilizing for their new business normal with seamless protection that stops the most evasive cyberattacks across boundless exposure points and increasingly remote, mobile and cloud-enabled workforces. By knowing the unknown, providing real-time visibility and enabling breakthrough economics, SonicWall closes the cybersecurity business gap for enterprises, governments and SMBs worldwide.
