SONICWALL

EDUPRIZE Schools

Introduction

This case study of EDUPRIZE Schools is based on an August 2019 survey of SonicWall NSa firewalls customers by TechValidate, a 3rd-party research service.

> "My SonicWall NSa firewall allowed for more control in my environment," says Jeremy Atkin, Associate Superintendent, EDUPRIZE School. "It established connection between campuses and added security."

Challenges

The charter school district had tried Palo Alto Networks before selecting their SonicWall NSa solution. They deployed SonicWall NSa firewalls because they were challenged with optimizing network security performance.

Use Case

Single-pane-of-glass management and reporting (Capture Security Center) was an important feature in selecting their SonicWall NSa firewall.

Results

Atkin is very satisfied with their NSa solution, and finds it provide the best security value. "My SonicWall NSa firewall is meeting or exceeding my performance and security expectations."

The organization realized the following operational benefits following the deployment of their SonicWall NSa firewall:

- Met regulatory compliance standards
- Has seen the number of blocked attacks increase by 51-75%

Organization Profile
