SONICWALL®

GOURMET FOOD DISTRIBUTOR BOOSTS SECURITY

First Source implemented a cost-effective, next-generation firewall solution for increased network security, constant uptime and ease of collaboration

Business need

First Source LLC is a distributor of fine chocolates and other specialty food items. As First Source grew, it needed a scalable, updated security infrastructure to better protect against threats around the clock.

Solution

First Source deployed SonicWall NSA Series firewalls and SonicPoint wireless access points across their distributed sites, as well as implementing site-to-site VPN functionality.

Results

SonicWall has not only boosted security, but having site-to-site VPN access with load balancing and high-speed internet connections has allowed the company to increase efficiency and collaboration too. With the application control feature, the company is able to have network resources focused on productive applications. "The site-to-site VPN technology is probably the best out there."

Benefits

- Increased security
- Easy collaboration between locations
- Zero downtime
- Increased efficiency through secure VPN and wireless

Solutions at a glance

- SonicWall NSA Series
- SonicWall TZ Series
- SonicWall SMA Series
- SonicWall SonicPoint Series
- SonicWall GMS Series

"In terms of performance and reliability, everything really pointed me in the direction of SonicWall."
