SONICWALL NETWORK SECURITY CASE STUDY

Retail: Integrity Business Solutions

Introduction

This case study of Integrity Business Solutions is based on a May 2019 survey of SonicWall Network Security customers by TechValidate, a 3rd-party research service.

"

"We use SonicWall TZ Series firewalls for IP gateway as well as VoIP routing and holding our VPN connections between our various locations," says Steve Shick, IT Director, Integrity Business Solutions.

"Our previous routers would freeze up and we were constantly rebooting them. Outside of reboots for updates, our SonicWall TZ firewalls run all day, every day with no hassle."

Challenges

Shick had tried WatchGuard firewalls before selecting SonicWall TZ firewalls.

The retail company deployed SonicWall TZ firewalls to provide greater scalability and reliability for network security.

Use Case

Key features that were important in selecting their TZ included:

- Zero-Touch Deployment
- An integrated VPN

Results

Shick is very satisfied with their TZ Series firewall. He finds that their TZ firewalls:

- Beat the competition in security effectiveness
- Provide the best security value
- Are easy to deploy and manage
- Has the networking features they need

Integrity Business Solutions realized the following operational benefits following the deployment of their SonicWall TZ firewalls:

- An improved efficiency of their business process
- Reduced IT infrastructure costs
- An improved overall system uptime
- An improved data protection of critical information

Company Profile

Company:
Integrity Business Solutions

Company Size:
Medium Enterprise
