

SONICWALL SD-BRANCH CASE STUDY

SABMD – Medium-enterprise retail company

Introduction

This case study of SABMD is based on a September 2020 survey of SonicWall SD-Branch customers by TechValidate, a 3rd-party research service.

"My experience with the SonicWall switches was excellent. We've used SonicWall since the year 2000." - Wasig Rahu, IT Director, SAMBD

Challenges

Rahu had previously tried or evaluated 4G Cradle Point before choosing SonicWall SD-Branch.

The business challenges that led the medium enterprise retail company to evaluate and ultimately select SonicWall SD-Branch include:

- Managing remote branch offices
- Deploying networking and security at scale

Use Case

The company deployed SonicWall SD-Branch in order to provide secure managed connectivity between HQ and remote office or branches.

They have SonicWall TZ entry-level firewalls and NS_a_ midrange firewalls deployed in their SD-Branch environment.

Results

Rahu recommends the SonicWall SD-Branch solution. He rates the SonicWall SD-Branch solution 5 of 5 stars because of how easy it was to deploy and

Company Profile

Company: SABMD

Company Size: **Medium Enterprise**

Industry: Retail

About SonicWall SD-Branch
