SONICWALL

# The NetSolvers

## Introduction

This case study of The NetSolvers is based on a July 2020 survey of SonicWall customers by TechValidate, a 3rd-party research service.

> "By using SonicWaves, I was able to segregate different wireless networks and zones, allowing us to provide and monitor differing access and content filtering across network zones."
> —Alan Boshnack, Senior IT Manager, The NetSolvers

## Challenges

The company had tried Meraki and Ubiquiti before selecting its SonicWall wireless security solution.

The company cited the need for reliable operation as the challenge that most influenced their decision to deploy SonicWave access points.

## Use Case

"I have been using SonicWall since Gen 1," says Boshnack. "I find them easy to use and manage, and rock-solid performance."

The key features and functionalities that were important for Boshnack in selecting SonicWave included:

- Exceptional WiFi user experience with 802.11ac Wave 2 technology
- Seamless integration with SonicWall firewalls

## Results

Boshnack Is very satisfied with their SonicWave wireless access points. He reports the SonicWave solution is meeting or exceeding his performance and security expectations, and includes the tools and features he needs. He finds it provides a secure, flexible and easy-to-use way to connect and secure employees, while allowing them to maintain social distancing.

The surveyed company has achieved the following results with SonicWall:

- Noticeably improved productivity for their wireless network users since deploying SonicWave.
- Simplified wireless security management
- Improved protection of critical information
