

SONICWALL NSA FIREWALLS CASE STUDY

# Washington County Sheriff's Office

#### Introduction

This case study of Washington County Sheriff's Office is based on an August 2019 survey of SonicWall NSa firewalls customers by TechValidate, a 3rd-party research service.

"Our SonicWall NSa is used for routing and VPN of our network," says Dennis Dorsey, Deputy Sheriff, IT Director.

"Our SonicWall NSa appliance has met and exceeded our expectations in our network security, and management of our network."

## Challenges

The sheriff's office deployed SonicWall NSa firewalls because they were challenged with consolidating security and networking features in a single solution.

### Use Case

Integrated VPN was a key criteria in selecting their NSa firewall.

### Results

Dorsey is very satisfied with the NSa Series, and finds them easy to manage.

The sheriff's office realized the following operational benefits following the deployment of their SonicWall NSa firewall:

- Faster performance
- Increased number of blocked attacks by 26-50%

#### **Organization Profile**

Organization: Washington County Sheriff's Office

Organization Size: State & Local
